

TRANSMD® HEALTHCARE FILMS

MEDICAL DEVICE PACKAGING & COMPONENT FILMS

As the leading manufacturer, coater and precision converter of plastic films, Transcendia provides a broad portfolio of films designed specifically for medical device packaging and components custom converted to your specifications. Transcendia offers expertise, technical support, quick-turn order fulfillment, low minimum order quantities and inventory stocking programs available from production facilities throughout the U.S. and Canada.

TRANSMD POUCH FILMS

TransMD Pouch Films are manufactured to provide consistent, durable performance in the fabrication of sterilizable medical packages and are engineered for high-speed processing for both horizontal flow wrap and 4-side seal sterile barrier pouch systems.

BENEFITS & FEATURES

- Available in both PET (48 and 92 ga) & Nylon (60 and 100 ga) Configurations
- Provide strength, puncture, and abrasion resistance for maximum product protection
- Designed for Gamma & ETO sterilization
- Consistent machinability
- High clarity allows for excellent product visibility
- Clean, consistent seal/peel to coated papers and uncoated and coated DuPont® Tyvek®
- Weld seals to itself
- Coated roll stock is custom converted to your specifications

TRANSMD OVERWRAP FILMS

Transcendia TransMD Overwrap packaging films are designed to be run on VFFS and HFFS equipment in both laminations and single webs to promote maximum shelf life.

BENEFITS & FEATURES

- Polyester and Polypropylene films available
- Range of oxygen and moisture barrier
- Low seal initiation temperatures; ideal for high-speed processing
- Delivers high clarity and gloss for shelf appeal
- Select perforated films to achieve specific oxygen and moisture transmission rates
- Choose clear, white or metalized films
- Range of thicknesses available
- Roll stock or Sheet stock is custom converted to your specifications

PERFECT FOR:

Bandages & Wound Care
Syringes
Tubing Sets
Injection Molded Plastic

Parts
Surgical Drapes & Gowns
Laboratory Supplies

HEALTHCARE FILMS

TRANSMD COMPONENT FILMS

Transcendia offers a broad portfolio of TransMD Polyester Component films featuring dimensional stability, adhesion, clarity, heat and chemical resistance, and engineered surface treatments for a wide range of applications.

BENEFITS & FEATURES

- Anti-Fog and Anti-Glare surface treatments
- Adhesion promoting surfaces for printability
- Specialty coatings and treatments for slip, release and heat seal
- Custom color tinting and color matching available
- Range of thicknesses available
- Consistent machinability
- Roll stock or Sheet stock is custom converted to your specifications

PERFECT FOR:

Medical Face Shields	Device Packaging Components
Transdermal Patch Components	Medical Tags & Labels
Casting & Carrier Applications	

FDA Approved Films
ISO 9001 Certified Company
AIB Superior Rated Facilities
Application-specific technical teams
Pilot Line Development Services
Dedicated stocking programs available
throughout our North American facilities network
